

Logipharma Asia 2009 – Attendee Testimonials

Congratulations on the successful event! One of the best networking events in the pharma industry with the biggest turnout of executives from the industry and with good active participation and contribution from speakers and delegates.

Joseph Lam, MD, Beacons

Enjoyed the experience and the Logipharma Team were most helpful and professional. It's important to note that the impact of counterfeit medicines is not about statistics it's about people's lives

Danny Hodder, Regional Director Asia Pacific – Global Security, **Astrazeneca**

I think the event was very successful. The key insight for me was learning from peers from the industry. We often tend to work insularly, listening to others does trigger ideas which can be applied in our Company. It also provided a great opportunity for networking

I am glad that I was part of this event. The participants, despite being senior in their appointments, were a "hungry" lot with respect to the searching for answers to their questions. My overall impressions of LogiPharma Asia 2009 had been highly positive; it's professionally organized and very successful.
